

PRESS RELEASE

Successful completion - Trainees of Braunform GmbH celebrate their passed exams

The management of Braunform GmbH congratulates the five newly qualified specialists on successfully passing their exams and is pleased with them. After three and a half years of training, the journeymen's certificates are now being handed over.

Hannah Bittner (process mechanic), Maximilian Hundertpfund (process mechanic), Alexander Kühne (tool mechanic), Sullivan Manger (tool mechanic), will be deployed in various company departments after their training. Tool mechanic Urs Meyer (tool mechanic) is leaving the company. Braunform wishes Urs all the best for the future.

The regional medium-sized company knows how important a good and secure future perspective is for the young generation and invests in its training. Braunform has always attached great importance to the quality of its training and the mentoring of young people. On average, around 35-40 apprentices and DHBW students are trained and accompanied in the company.

Braunform at a glance

Braunform GmbH, founded in 1977 by Erich Braun in Bahlingen a. K., today is one of the world's leading partners in the field of plastic mold making. The long-term oriented family business has made it its goal to produce injection molds for whose end products - according to today's standards - plastic as a raw material is without alternative or more resource-saving than the possible alternative. The unique selling point of the mold-shop is the pharmaceutical production in own clean rooms according to GMP C and D. Today, Braunform GmbH is managed by Mrs. Pamela Braun (Managing Partner), Mr. Emmanuel Foyer (General Manager) and Mr. Joachim Stiller (General Manager). With 365 employees, the company is considered to be an important employer in the region in the southwest of Germany.
