

PRESS RELEASE

Braunform GmbH Celebrates 30 Years of Service by Georg Seebacher

On December 1, 2024, the management of Braunform GmbH honored long-time employee Georg Seebacher for his impressive 30 years of service. Owner and Managing Director Pamela Braun and Head of HR and Finance Oliver Bornhäuser expressed their deep gratitude to Mr. Seebacher for his tireless dedication, loyalty, and reliability.

Dipl.-Ing. (FH) Georg Seebacher began his career at Braunform GmbH on December 1, 1994, in the design department. As an experienced designer, he realized numerous projects in the automotive, pharmaceutical, and cosmetics sectors. In addition to designing a variety of multi-component tools that are now indispensable in our daily lives, he was instrumental in the development and advancement of Braunform's rotary table program. His technological expertise and innovative strength are also reflected in the number of patents in which he is named as an inventor.

After gaining extensive technical knowledge, he sought a new challenge in September 2012 and found it in project management. To this day, he primarily serves clients in the packaging, irrigation technology, and pharmaceutical sectors.

Music plays a significant role in Georg Seebacher's private life: the passionate bass guitarist has been playing in the rock band BADNBLUE for over 25 years.

As a family-run company, Braunform places great value on stability and loyalty. The expertise and commitment of long-term employees are invaluable. "At Braunform, people are at the heart of our success," emphasizes Managing Director Pamela Braun. Therefore, the qualification and further training of employees, as well as their independent actions, are of great importance.

Braunform at a glance

Braunform GmbH, founded in 1977 by Erich Braun in Bahlingen a. K., today is one of the world's leading partners in the field of plastic mold making. The long-term oriented family business has made it its goal to produce injection molds for whose end products - according to today's standards - plastic as a raw material is without alternative or more resource-saving than the possible alternative. The unique selling point of the mold-shop is the pharmaceutical production in own clean rooms according to GMP C and D. Today, Braunform GmbH is managed by Mrs. Pamela Braun (Managing Partner), Mr. Emmanuel Foyer (General Manager) and Mr. Joachim Stiller (General Manager). With 380 employees, the company is considered to be an important employer in the region in the southwest of Germany.

Mission Statement

Molding Your Visions: We mold the needs of our customers. We provide solutions to effectively produce our customers' products using clean, state-of-the-art technology with core competencies in mold making, injection molding and full service.

Braunform in Detail

Braunform specializes in the production of multi-component molds, multi-cavity molds, stack molds, molds for medical technology (MED Mold®) as well as fast, long-lasting rotary tables. The fully air-conditioned precision mold shop with state-of-the-art production technology serves – amongst others – industries like pharmaceutical, personal care, water technology, electrical and automotive. For the pharmaceutical industry, sophisticated manufacturing processes, including automated assembly and stamping, are implemented in state-of-the-art clean rooms in accordance with GMP C and D. In our own technology center, injection molding machines for 2K (with silicone gating) and 3K applications can be used for pre-series

production. Due to project management and full-service engineering, shortest time-to-market times are made possible and costs are significantly reduced. Key elements are process reliability, shorter cycle times, increased output and highest product quality in combination with support and consulting for sustainable production processes. The company is certified according to DIN EN 13485 / 15378 / 9001 / 14001 / 50001.

The company is fully committed to "Engineering Made in Germany". This includes not only a highly qualified, enthusiastic team and a high proportion of apprentices (10%), but also highest quality and technological leadership. The declaration of sustainability, which is firmly anchored in the company's policy, commits the company to constantly improving its own CO2 footprint. In 2020, the company was also awarded a silver medal by the sustainability platform "Ecovadis". Both company health care and social commitment are given high priority. As one of the best employers in Germany, Braunform received the "Top Job" award for the third time in 2020, following 2014 and 2017.
