PRESS RELEASE

Braunform honors 25 years of service

In today's world, employees who remain loyal to a company for over 25 years are a true rarity. For this reason, the management of Braunform GmbH honors the long-term commitment of Thomas Geier. His career at Braunform began with an apprenticeship as a tool mechanic. On October 1, 1999, Thomas Geier reached the next milestone: he graduated as a Dipl.-Ing. in Plastics Engineering from Aalen University of Applied Sciences. After his studies, Thomas Geier continued his career at Braunform in May 2000 as a production manager in mold making. In 2008, he transitioned from mold making to the company's own cleanroom production, taking over the management of plastics and pharmaceutical production as well as industrial engineering. Thomas Geier was also significantly involved in the construction of the new plant in Endingen, and Braunform is very grateful for his tireless efforts. With his extensive experience, Thomas Geier now holds the strategic position of Head of Validation for Plastics and Pharmaceutical Technology. The management of Braunform GmbH and the Braun family sincerely thank Thomas Geier for his loyalty, pleasant and professional cooperation, as well as his commitment and achievements. The staff also joins in the congratulations.

"As a family-owned company, we are particularly proud of our long-standing employees, who are not only colleagues but also part of our family. They are the pillars of our company and contribute significantly to our success with their immense know-how," emphasizes owner and managing director Pamela Braun. Qualified employees are essential to remain competitive in the future. Therefore, Braunform places great importance on the satisfaction and loyalty of the workforce, as well as on internal training measures and a solid education.

Braunform at a glance

Braunform GmbH, founded in 1977 by Erich Braun in Bahlingen a. K., today is one of the world's leading partners in the field of plastic mold making. The long-term oriented family business has made it its goal to produce injection molds for whose end products - according to today's standards - plastic as a raw material is without alternative or more resource-saving than the possible alternative. The unique selling point of the mold-shop is the pharmaceutical production in own clean rooms according to GMP C and D. Today, Braunform GmbH is managed by Mrs. Pamela Braun (Managing Partner), Mr. Emmanuel Foyer (General Manager) and Mr. Joachim Stiller (General Manager). With 380 employees, the company is considered to be an important employer in the region in the southwest of Germany.

Mission Statement

Molding Your Visions: We mold the needs of our customers. We provide solutions to effectively produce our customers' products using clean, state-of-the-art technology with core competencies in mold making, injection molding and full service.

Braunform in Detail

Braunform specializes in the production of multi-component molds, multi-cavity molds, stack molds, molds for medical technology (MED Mold®) as well as fast, long-lasting rotary tables. The fully air-conditioned precision mold shop with state-of-the-art production technology serves – amongst others – industries like pharmaceutical, personal care, water technology, electrical and automotive. For the pharmaceutical industry, sophisticated manufacturing processes, including automated assembly and stamping, are implemented in state-of-the-art clean rooms in accordance with GMP C and D. In our own technology center, injection molding machines for 2K (with silicone gating) and 3K applications can be used for pre-series production. Due to project management and full-service engineering, shortest time-to-market times are made possible and costs are significantly reduced. Key elements are process reliability, shorter cycle times, increased output and highest product quality in combination with

support and consulting for sustainable production processes. The company is certified according to DIN EN 13485 / 15378 / 9001 / 14001 / 50001.

The company is fully committed to "Engineering Made in Germany". This includes not only a highly qualified, enthusiastic team and a high proportion of apprentices (10%), but also highest quality and technological leadership. The declaration of sustainability, which is firmly anchored in the company's policy, commits the company to constantly improving its own CO2 footprint. In 2020, the company was also awarded a silver medal by the sustainability platform "Ecovadis". Both company health care and social commitment are given high priority. As one of the best employers in Germany, Braunform received the "Top Job" award for the third time in 2020, following 2014 and 2017.
